AGRITOURISM SUCCESS PROGRAMME

What is it and who is it for?

The Agritourism Success Programme is an accelerated 3-month course for NZ farmers who are interested in increasing their cashflow by diversifying into tourism, and for those who want to grow their existing agritourism venture.

What will I get out of it?

By taking time out to work 'on' your business, you'll come away with a clear plan and goals, as well as an action plan of how to achieve what you set out to do. You will learn all about the tourism industry, gain new skills, develop new products and make some great new connections. We'll also work with you individually on your business.

How does it work?

In a **small group**, we start with two full days (one day in between); the **Strategic Planning Day** and the **Marketing Planning Day**. NEW this year: we'll help you set up and use a fantastic **online project management tool** that'll help you stay on track. A wealth of resources are available for course participants only.

You'll learn about a range of topics through **18 webinars**. Interviews with interesting and high profile people are part of the webinar series.

Through **one on one coaching** we'll help you with your specific business situation.

Later in the programme, there's a **networking** half day with other agritourism operators.

You'll receive **Weekly Check-In emails** with the latest resources, tips, articles and what's coming up, and the online resource library will help you with tools, tutorials, links to useful websites and more.

Facilitator

This exciting programme has been developed and is facilitated by Marijke Dunselman, founder of the Agritourism NZ Network and one of NZ's leading tourism marketing specialists with over 24 years of (agri)tourism experience.
